Win First Game Of Season 58-0

Fort McKinley Easily Defeated in Second Half of Game. Many New Men Used in all Positions

Maine defeated Fort McKinley in the first game of the season Saturday. The Fort put up a stiff fight the first half but weakened in the last half and were easily beaten 58-0.

Coach Baldwin used new men in nearly all positions. Competition for positions is even more keen than last year. The line is green, many of the fellows being inexperienced but there is plenty of desire to learn. There are prospects of a good fast team by mid-season. The freshmen are furnishing a lot of good material which will fill the gaps left by the old men who have left college. Veterans are coming back all the time. Hussey and Coady reported Monday and Bisson expects to be in the game by the middle of the week.

Cross Country in Full Swing for Clean Up

With Coach Preti Managing the 50 Candidates for Cross Country a Successful Season is Assured

With Coach Preti at the helm, the University of Maine harriers are making great headway towards continuing their long list of successful seasons. It is interesting to note that Maine is one of the three colleges in the United States that have a special coach for cross-country. Thus it can be seen that Maine is well up with the leaders in this particular sport.

Coach Preti is anxious that all green men report at once as he will need every available man to develop a fast team. The management is endeavoring to arrange for a series of meets with some of the large eastern colleges and as we have an enviable record it necessitates intensive training for the squad in order that we may retain our laurels. The team will probably go to the National's as well as the New England's, thus it behooves all the seniors, juniors and sophomores, who think they can run to show their pep and come out for the team as freshmen are not allowed to compete in the National's. In our own State Meet, Bates is a strong contender and Maine will have to work hard to bring home the bacon.

Capt. Barnard is giving his undivided efforts to get together a winning team. As a nucleus Capt. Barnard, Raymond, Herrick, A. E. Wilson, W. O. Wilson, McLaughlin, Pease and Cohen of last year's team are out. It is too early in the season yet to ascertain the value of the new material as there are over fifty men in the squad. In order to make competition more keen, Coach Preti is planning to divide the squad into two teams and run races over the regular course.

Military Appointments Made for Coming Year

The following is a list of the appointments in the R. O. T. C. for the season of 1920-21:

The following tentative appointments of officers and non-commissioned officers in the Reserve Officers Training Corps of this unit are hereby made, subject to the approval of the President of the University:

To be Lieutenant-Colonel of the Regiment: Lindsay J. March; To be Major: Eugene L. Sullivan; To be Regimental Sergeant-Major: Philip L. Gray;

Large Meeting Held Here This Summer

Farm Bureau and Grange Held a Successful Field Day. Nearly 2000 Persons were Present

A campus event of mid-August, just after the close of the summer term, was a joint field meeting of the Penobscot Farm Bureau, the three Pomona Granges and the boys' and girls' clubs of Penobscot county. About 2000 persons came, very many of them motoring from their farms, and their cars lined up along the road in the vicinity of the barns made a very striking display.

The boys and girls of the clubs, under charge of County Agent Richard B. Dodge, State Leader Lester H. Shibles and Assistant State Leader Alfreda Ellis, took early possession of Athletic Field and ran off a list of sports, while the grown-ups assembled in the chapel and listened to addresses. Dean Merrill of the College of Agriculture, Governor Milliken, Rev. Ashley A. Smith of Bangor and William E. D. Rummel of the American Farm Bureau Federation were the speakers.

After the picnic lunch, served in the Gym, the visitors made a tour of the campus, took a look inside all the buildings and then divided their time among various outdoor demonstrations. The boys and girls had a rally in the chapel in the early afternoon, in which brief addresses were given and a number of the clubs furnished entertaining features. The day's activities concluded with a ball game between Bradford and Charleston teams. Neither scored until the eighth inning, then Bradford squeezed in one run and Charleston in a single cleanup of the bases made the score 3 to 1. The game proved to be so interesting that many a visitor who went out on to the field just to see the rival outfits open up remained until past milking time.

Many New Professors Obtained by University

An Exceptionally Well-Fitted Corps of New Teachers Added to our Faculty

At the end of last semester the University lost many fine professors and instructors. After untiring search it has been able to secure men and women with such high recommendations that it feels very fortunate indeed. There have likewise been made many additions to the faculty due to the increased number of students that are now attending the University with such a faculty as we now have there is every indication of this being a very successful year.

The following list of new professors is taken from a bulletin published by the University.

ALFRED S. ADAMS, Instructor in Mathematics.—Mr. Adams was a member of the University of Maine, Class of 1911. He has done graduate work at Teacher's College Columbia University. He has taught in the High Schools at Winter Harbor, Ellsworth, Auburn, Bar Harbor, and Woodland, being Principal at the latter place.

MARK BAILEY, Associate Professor of Public Speaking.—Professor Bailey is an A. B. from an A. M. from Michigan. He has taught in Escanaba and Superior High Schools, and been Assistant Professor in Whitman College.

JAMES BALDWIN, Professor of Physical Education.—Professor Baldwin takes the place of George L. Rider, who has gone to Washington University, St. Louis. He is a Dartmouth man. He was the successful football coach of last year. Following the football season he remained as a general assistant to Professor Rider. In addition to the management and oversight of the department, he will have special charge of football and basketball.

DALLAS BECKER, Instructor in Chemistry.—Mr. Becker is a graduate of the Western State Normal School and has

(Continued on Page Two)

How About a Trip to Boston

A Fine Excursion Trip to the Harvard Game October 2, is planned. The Boston Boat to Be Chartered

Night Shirt Parade Held in Fine Style

It was One of the Best Parades Ever Held and Shows that Old Maine Customs will Stand

The whole student body was gratified by the success of the annual Night Shirt Parade which was held on the campus last Wednesday night.

This fact proves that the time-honored customs of the University of Maine will continue, and that Maine can hold up her customs without violent hazing. The freshmen voluntarily chose to take part in the parade, which shows that they are also anxious to keep up the old customs and traditions of the University.

At ten-thirty, the freshmen gathered in front of Hannibal Hamlin Hall, and, assisted by the upperclassmen, proceeded on a tour of the campus, taking in North Hall, Balentine and Mount Vernon consecutively. At each of these halls a halt was made and the usual procedure ensued. The line stopped in front of the Phi Eta Kappa house where a picture was taken; after which it disbanded. We hope the same spirit will prevail throughout the year.

Students Wanted For Campus Board

All students who wish to work out for the Campus Board should register for Eh. 27 and then see either Howard at the Kappa Sigma House or Marston at the Phi Gamma House. Those who are interested in the business end see Glover at the Sigma Chi House. There is a weekly meeting of the Board at Coburn Hall at 4:15 Monday afternoon. Mr. Cummins is in charge of this meeting. He is an expert newspaper man and will furnish invaluable help and instruction to all in the class. All students interested in Journalistic work should try out for the Board.

Freshman Reception Opens Social Season

Refreshments were Served and Dancing was in Order until 11:30

The annual Freshman Reception took place last Saturday evening in Alumni Hall, and proved a great success. The first part of the evening was spent in becoming acquainted. This was made easy by all wearing slips of paper exhibiting names, classes, and home towns.

The receiving line was composed of President and Mrs. Alej; Dean and Mrs. Hart; Dean and Mrs. Stevens; Rev. and Mrs. Wilson of the United Parish; Rev. Fairchild of the Methodist Church; Mrs. Claves of Balentine Hall; Mrs. Hendrickson of The Maples; Mrs. Estabrooke of Mount Vernon; Rena Campbell, President of the Y. W. C. A.; and Ralph Lancaster, President of the M. C. A.

Carl Stevens on behalf of the M. C. A. introduced Dean Stevens who welcomed the freshmen to Maine. The Dean mentioned the two important factors of college success and offered them as advice. The first was: "Do not be

(Continued on Page Two)

The football team plays Harvard a week from next Saturday, Oct. 2 and it has been suggested that the student body take the trip with the team. No arrangements have yet been made but the plans are to take the Boston boat Thursday night and return on the boat Saturday night after the game. The fare on the boat for the round trip is \$14.75 and it will cost about \$5.00 to spend Friday and Friday night in Boston.

Not only students but all friends of the University are invited to go. If two hundred students and as many friends would make the trip and with the Boston alumni and a band we could have a cheering section that would make Harvard, for once, know that she had played the University of Maine. It is clearly understood that the team will do its part, how about the student body.

Military Summer Camp At Devens Great Success

Five Maine Men Attend the Camp for Six Weeks. Major James Acted as Executive Officer of the Camp

The R. O. T. C. Infantry Camp of 1920, stationed at Camp Devens, Mass. last summer, was attended by a total of 741 students, representing 54 institutions in 24 states. The University of Maine was represented by five students including two senior basic and three senior advanced, and one faculty member in the person of Luther R. James, Professor of Military Tactics who served as executive officer of the camp. The students who attended the camp are, Lawrence W. Davee, Otto H. Rosenwald, Lindsay J. March, Osgood A. Nickerson, Eugene L. Sullivan.

The camp was run upon a strictly military plan and the students were afforded the opportunity of living in regular army barracks. This experience enabled them to acquire an understanding of life in the Army, which is highly beneficial to a prospective officer. Each company was provided with a separate barracks and mess hall, the same building being used for them as were occupied by the boys who went to France.

The students arrived at the camp June 17 and remained until July 28, a period of six weeks. Upon their arrival in camp the students were issued their supplies and assigned to their quarters in the barracks. Each morning after reveille the students policed the barracks and grounds, made their beds, put away unnecessary equipment, lined up their bunks, and prepared for "stand to" inspection at 6:45 a. m. by company and platoon commanders. At nine o'clock p. m. lights in the squad

(Continued on Page Four)

A Challenge for Sophomore Girls

The Old Custom of Class Insignia for Freshman Girls Should be Revived

In past years it has been customary for the freshmen girls to wear some badge of distinction. There seems to be no reason why the girls should be deprived of a class insignia when the boys are given caps as a special honor. The bonnets and bibs and pins of a few years ago are now never seen and now

The editor-in-chief is responsible for the general policy of the paper and for the editorial columns; the managing editor for the news columns and the makeup of the paper; and the business manager for the business and finances.

COMMUNICATIONS should be at the postoffice at Alumni Hall before Saturday noon to insure publication.

Printed by the UNIVERSITY PRESS, Orono, Maine

Editorial

Just a word to the freshmen.

Don't buy any radiators. They go with the room. Nor are there any courses in which the first edition of Wentworth's College Arithmetic is used. Of course all of you aren't foolish enough to buy chapel seats but if every member of the entering class, realizing that instead of a senior in high school he is a freshman in college and granting that college graduates have had a little more experience in college matters, will do himself and the upperclassmen the favor of carefully reading and then complying with the Freshman Rules, he will be doing the biggest thing for the University that he will be able to do in his four years.

These rules are not commandments adopted by the sophomores. They are a set of rules for the guidance of new students formulated by the faculty and men who are now alumni. They were collected after a careful study of the University life of the past years, and they uphold only those customs which are considered by college men who are experts on college matters to be beneficial to the student body, the college life, and the University of Maine spirit. If the freshmen do not fully appreciate them now, when they become upper classmen they will. At present just take the advice of your elders.

It is a comparatively easy matter to do a little good for the University, but it is an exceptionally easy matter to do a lot of harm at the present time. The faculty has been doing its utmost to win the efforts of the trustees. And the trustees have been working to get the necessary aid from the state. Twice thru the publication of unpleasant occurrences all efforts to aid the University have been turned to naught. And all of this was due to a mere handful of students acting foolishly and carelessly.

At the present time the University is facing a very critical position. At the next legislature new appropriations must be made by the state or the University of Maine will have to be discontinued. A single occurrence of hazing or an accident due to some interclass scramble, should it gain publicity, would ruin the entire future of the institution. Those opposed to the University would spread the news broadcast thru the state and the appropriations would cease. Such an incident might be due to two or three students. There would be no cure. The only remedy is prevention. So it behooves every student to take care of his or her actions.

Not only freshmen but everybody should help to keep the campus clean. Keep the bits of paper picked up. Tack all notices firmly on the bulletin boards so the wind won't blow them off. This

will help. At the waiting room use the bulletin board rather than the sides of the building. This will avoid the unsightly appearance that that spot had last year.

Women Elect Members Of Student Government

The members of the Student Government Council of the women of the University of Maine have been chosen for the Fall Semester of 1920. They are:

President, Lucy Kilby, Vice President, Hope Perkins, Secretary, Ardis Lancy, Treasurer, Marie Hodgdon.

The following have been elected presidents of the various houses:

Balentine Hall, Emilie Ritter, Mt. Vernon, Mildred Bisbee, Mt. Vernon Annex, Madeline Eastman, North Hall, Iva Barker, President of Y. W. C. A., Rena Campbell; Class Representatives: Senior, Margaret Blethen, Junior, Helen Bragden, Sophomore Evelyn Thomas, Freshman, To be elected.

Freshman Reception Opens Social Season

(Continued from Page One)

odd"; the second, "Gain college distinction rather than notoriety."

After the Dean's address, Carl Stevens directed the usual contest to see who could get the greatest number of names on their list. The prizes for this contest were given out by Wyman Hawkes; the boy's being a very handsome cigarette stand, and going for thirty-seven names; the girl's being an excellent bottle of perfume and bringing thirty-six names.

The latter part of the evening was devoted to dancing, which was held in the gymnasium. Mr. King of Orono, the caterer, served excellent refreshments as the party passed into the hall.

At Johnson's famous five piece orchestra held up its last year's fame until twelve.

Decorations from the University greenhouse added greatly to the appearance of the hall.

The great success of the reception was due to the assistance of the Y. W. C. A., and to the efficiency of the Reception Committee, the members of which were: Carl Brown, chairman; Rena Campbell, "Dot" Hannington, "Kewpie" Small, Wyman Hawkes, Everett Strout and "Phil" Fenlason.

Everybody that has football ability is wanted out on the field in uniform every night. But this is not all. The whole student body ought to be out there with the squad. This is only a small way you can let them know that you are backing them. Soon there will be scrimmaging every night and there will be two or three games going on at the same time.

Every student should read the notices on the bulletin board every day.

Many New Professors Obtained By University

(Continued from Page One)

done university work at the University of Michigan and the University of Wisconsin. He has done chemical and research work for industrial plants in Illinois, Michigan and Wisconsin.

AARON I. BLESS, Instructor in Physics.—Mr. Bless is a graduate of Temple University and has done graduate work at the University of Toulouse. He was Laboratory Assistant at Temple University and for the past year was Instructor in Albion College.

INEZ BOWLER, Assistant Librarian.—Miss Bowler is an A. B. from Colby and a B. S. from Simmons. She has taught in the High Schools at Calais, Maine, Wayland, Mass., and Putnam, Conn. For one year, she was Index and File Clerk at the Boston Navy Yard. For the past year she was Legislative Reference Librarian in the Maine State Library, Augusta.

JAMES S. BROOKS, Instructor in Engineering Drawing.—Mr. Brooks has had a great deal of practical experience with municipal, state and business concerns. His college work has been done at the University of Maine. He has served several months overseas in the U. S. Army.

HERBERT D. CARRINGTON, Instructor in German.—Dr. Carrington is a Ph. B. from Yale, and a Ph. D. from Heidelberg. His experiences as a teacher include District and High School work. Instructorships at the Sheffield Scientific School, University of Michigan, and Smith College, a Professorship at the University of Washington, and an Assistant Professorship at Smith.

FLORENCE L. CHANDLER, Instructor in Bacteriology and Veterinary Science.—Miss Chandler was educated in the Brunswick High School and the University of Maine. She received the degree of B. S. with Animal Industry as her major subject.

ISRAEL CHASMAN, Instructor in English.—Mr. Chasman holds the degrees of A. B. and A. M. from the University of Texas. With the exception of his thesis, he has completed the work for the Doctor's degree at Cornell. He has taught in the San Antonio High School.

MONTE CROSS, Instructor in Physical Education.—Mr. Cross has been with us for several years as Baseball Coach. He is to continue with us in the same capacity, but with the more descriptive title of instructor.

L. H. DAWSON, Assistant Professor of Physics.—Professor Dawson received the A. B. from Clark College in 1912. He has done graduate work at Harvard, George Washington, and Clark Universities, receiving the A.M. degree from the last named institution. He served for three years as Laboratory Assistant in the U. S. Bureau of Standards, and for the past year was Instructor in Physics at Lehigh.

ROBERT DOUGALL, Instructor in History.—Mr. Dougall is a graduate of McGill University and has done advanced work at Massachusetts Agricultural and Amherst Colleges. He has taught in MacDonald College and Cushing Academy.

WESTON S. EVANS, Instructor in Civil Engineering.—Mr. Evans was a member of the University of Maine, Class of 1918. Since graduation he has been engaged in practical work either in the army or in the engineering department of the Great Northern Paper Company.

EVERETT J. FELKER, Instructor in Civil Engineering.—Mr. Felker is a graduate of the Castine Normal School. He has had wide and successful experience as a teacher. For the past six years he has been Junior Topographer for the U. S. Geological Survey. During the past summer, he has been Assistant Inspector for the Maine Highway Commission.

HOWARD W. FLACK, Associate Professor of Physical Education.—Professor Flack is a graduate of Syracuse University and has done graduate work in Miami, and in the School of Fire at Fort Sill. He has had wide and successful experience as Coach of Track, Basketball, Football, and Baseball. He won a Commission as 1st Lieutenant during the war. Besides assisting in the general work of the department, he will have special charge of the training for track events.

LEIGH P. GARDNER, Instructor in Animal Industry.—Mr. Gardner received his education at Hebron Academy and the University of Maine, graduating from the latter with the degree of B. S. last June.

SHERMAN J. GOULD, Instructor in

Physics.—Mr. Gould is a B. S. from Bates, Class of 1916. He has taught in the Madawaska Training School and has been Principal of the Eliot High School.

THOMAS H. JOHNSON, Instructor in Mathematics.—Mr. Johnson is an A. B. from Amherst College, Class of 1920. He comes with very high recommendations.

THELMA KELLOGG, Assistant in English.—Miss Kellogg graduated from the University of Maine in 1918. Since graduating she has been one year Principal of the Vanceboro High School and one year Teacher of English in the Bar Harbor High School. Her high grade work in college won her membership in Phi Kappa Phi.

ADA BELL KENNAN, Instructor in Biology.—Miss Kennan is an A. B. from Hillsdale College. She assisted in the Biology Department in Hillsdale College for one year and has had one year's experience in High School Teaching.

JOHN ELTON LODEWICK, Instructor in Biology.—Mr. Lodewick holds the degrees of B. S. and M. S. from the New York State School of Forestry. He was for one year a Graduate Assistant in Botany in his Alma Mater.

WARREN S. LUCAS, Instructor in Mathematics.—Mr. Lucas graduated at Maine in 1914. He has done summer graduate work at Maine and Bates. He has been Principal of the High Schools at Grand Lake Stream, Thomaston, and Exeter.

R. W. McCULLOCH, Assistant Professor of English.—Professor McCulloch holds the degrees of A. B. and A. M. from the University of North Carolina and A. M. from Harvard. He has held college positions as follows: Adjunct Professor of English, Georgia School of Technology, Professor of English, Daniel Baker College, and Acting Professor of English, Sweet Briar College.

J. L. MERRILL, Associate Professor of Chemistry.—Professor Merrill is a Ph. B. from Colby and a B. S. from the Massachusetts Institute of Technology. For the past twelve years he has been with the U. S. Department of Agriculture doing chemical and investigational work on pulp and paper making.

GERTRUDE PEABODY, Instructor in Home Economics.—Miss Peabody was an honor member of the University of Maine Class of 1920. She was elected to membership in the honor society, Phi Kappa Phi.

LUTHER J. POLLARD, Professor of Education.—Professor Pollard received the A. B. degree from Lawrence College and the M. A. from the University of Wisconsin. He has had wide experience in the public schools both as Principal and Superintendent. Since 1915, he has been Professor of Education in Lombard College, Galesburg, Illinois.

JULIET POYNTZ, Assistant Professor of Economics and Sociology.—Professor Poyntz holds an A. B. from Barnard and an A. M. from Columbia. She has done graduate work, one year at Oxford and one year at the London School of Political Economy. She has been Instructor at Barnard and a member of the Extension Staff at Columbia. She has also had experience in social service in Boston and New York.

FRANK P. PRETI, Instructor in Physical Education.—Mr. Preti needs no introduction. He is one of our own men who has already won many honors for his Alma Mater. He will be a General Assistant but will have special charge of the training of the cross country team.

CONAN A. PRIEST, Instructor in Engineering Drawing.—Mr. Priest is a member of the Senior Class. He is well prepared for the work he undertakes.

ROBERT J. SCHENKEL, Assistant Professor of Physical Education.—Professor Schenkel will be the instructor in the required general gymnasium work. He comes from Girard College where he has been Physical Instructor. He saw more than thirteen months' service in France with the U. S. Army. He was educated in the Temple Preparatory School and in Temple University, Philadelphia.

ELMO L. SHERMAN, Instructor in English.—Mr. Sherman is a B. A. University of Maine 1920. He was a high rank man and won membership in Phi Kappa Phi. He has had experience as a teacher in the Brownfield and Millinocket High Schools and as Student Instructor in the University of Maine.

GENEVA F. SMITH, Instructor in Physical Education.—Miss Smith will be in charge of Physical Education for

women. She is a graduate of Posse Normal School of Boston, and has had two years of successful experience as a teacher.

IRVING C. STORY, Instructor in English.—Mr. Story is a B. S. from New Hampshire College and an M. A. from Cornell University. He had eleven months of service overseas.

JOHN A. STRAUSBAUGH, Instructor in Spanish and Italian.—Mr. Strausbaugh is one year out of college, having received his A. B. at Dickinson in 1919. During the past year he was Principal of the Richmondville High School.

HAROLD C. SWIFT, Instructor in Agronomy.—Mr. Swift graduated from Maine in the class of 1918. He was a high honor man and is a member of Phi Kappa Phi.

STITH THOMPSON, Associate Professor of English.—Professor Thompson is a B. A. from the University of Wisconsin, an M. A. from the University of California, and Ph. D. from Harvard. He has taught in the high schools of Springfield, Kentucky, and Portland, Oregon. His college experience includes four years as Instructor in the University of Texas, and two years as Professor in Colorado College.

RAYMOND L. WALLELEY, Librarian.—Professor Walkeley is a Yale man, A.B. 1909, A.M. 1910. He was a high rank man, and was honored by membership in Phi Beta Kappa. He received the degree of B. L. S. from the New York State Library School in 1913. For the past six years he has been an official of the Minneapolis Public Library.

HARRY D. WATSON, Instructor in Mechanical Engineering.—Mr. Watson is a graduate of the University of Maine, Class of 1920. He entered with the Class of 1918, but was delayed in completing his course because of nearly two years of service in the army.

CHARLES F. WHITCOMB, Instructor in French.—Mr. Whitcomb has had many years successful experience as a teacher. He has taught in the New Sharon, Maine, Bolton, Mass., and Manchester, N. H. High Schools.

HAROLD C. WHITE, Instructor in Chemistry.—Mr. White graduated from Maine in 1915. Since leaving college he has held important positions with large chemical companies. During the war he served as a 2nd Lieutenant in the Chemical Warfare Service.

Alumni Notes

Minerva French '20 is teaching this year in Manchester, Conn.

Mary Pulsifer '20 is in Lancaster, N. H. teaching home economics.

Leona Gilman '20 has a position in Dover, N. H. teaching home economics.

Eleanor Jackson '20 is doing settlement work in Cleveland, Ohio.

"Dot" Stetson '20 is at home this year in Houlton and is teaching History and Spanish in Houlton High School.

"Ray" Atherton '20 is employed as County Agent in Androscoggin county. Kenneth Colbath '20 is employed in New York City.

"Occie" Whalen is attending B. U. He was here to help the M. C. A. during registration.

Dorothy Smith '21 and Helen Harrigan '23 have transferred to Simmons College.

Kathleen Snow ex '20, Simmons '20 has a position in the library in Millinocket.

Betty Mills ex '20, secretary to Dr. Alecy, has been absent from the campus since August because of illness.

Raymond Foyle and Phil Diehl '20 are working in New York in the insurance business.

There are several new instructors this year who are Maine graduates. Thelma Kellogg '18, English instructor; Florence Chandler '20, instructor in Bacteriology; Elmo Sherman, instructor in English; Harry Watson '20, instructor in mechanical engineering.

Flavia Richardson '20 is teaching mathematics in the high school in Old Town.

"Slicker" Brasier '20 has a position as Principal of Castine High School.

"Norm" Plummer '20 is in the New York Telephone Company located in New York City.

"Doc" English '22 is attending Johns Hopkins Medical this year.

Florence MacLeod '20 and Priscilla Elliott '20 are members of the faculty of Mt. Ida School in Newton, Mass.

Faye Smith '19 is staying at home this year teaching in Machias High School.

Frances Bartlett '20 is teaching domestic science in Millinocket.

It must be understood that the above appointments are only tentative and are subject to such changes as may be dictated by the interests of the R. O. T. C. and the ability of the individual to give instruction to the men.

L. R. James,
 Major, Infantry.

Prof. of Military Science
 and Tactics

Since no notices are to be read in chapel this year there will be an increased demand for bulletin board space. For this reason everybody should make all notices brief and compact.

At the Other End of the Wire

ATWIST of the wrist and electricity lights cities and towns, turns the wheels of industry, or affords conveniences to millions of people.

But let us follow the wire carrying this energy to its source and we find either a waterfall, a coal mine or an oil well.

Much of the supply of fuel in this country is being used up rapidly while the power of water is running to waste. For the rivers and streams of this country could, if properly harnessed, develop enough electric power to save 300,000,000 tons of coal annually.

By studying nature's forces—coal, oil and water—by applying them to machines, and finally by the perfection of apparatus to insure uninterrupted power service under varying conditions, the General Electric Company is serving to make electric power cheaper, more plentiful and reliable.

95-331D

GENERAL ELECTRIC COMPANY

AMERICA is fast becoming a pipe smoking country. Every year more and more men are realizing the comfort, the satisfaction, and the economy of the pipe. And by natural selection, more and more men are smoking WDC Pipes. This is not chance. It is because WDC Pipes offer the utmost in pipe value. Honest French briar, seasoned by our own special process make WDC Pipes break in sweet and mellow. Coupled with that is a self-governed body of pipe makers whose sole object is to fashion pipes which are without peers in all the world. And it has been accomplished. Ask any good dealer.

A Challenge for the Sophomore Girls

(Continued from Page One)

is the time they are most needed. This year, because of the scarcity of accommodations, the freshmen girls are living in annexes. This separation of the class members means that they cannot become acquainted as soon as they should. Why not help them to know each other?

Sophomore girls, can't you arrange some badge of recognition for the freshmen to wear? It will be a kindness to the new class and to the whole University for everyone wants to know the freshmen. Do your best Sophies, and make the freshmen look cute! It won't mean very much work.

At eleven-thirty Friday morning the students registered numbered twelve hundred and fifteen.

Military Summer Camp at Devens Great Success

(Continued from Page One)

rooms went out and silence was maintained in the barracks. At ten "Call to quarters" was sounded, followed a few minutes later by "Taps," when all students were required to be in bed.

After the companies were marched to the drill field, each morning at seven o'clock, the day's work began with a half hour of brisk setting up exercises under the direction of Lieut. Davis, direction of physical training. In addition to these exercises, the students were instructed in voice inflection and giving commands. Following this rifle drill was started and close order formations were practiced until 10 o'clock, when bayonet practice, knife disarming, and boxing drills were undertaken. The students put forth all their efforts in executing the commands and each platoon sought to surpass the rest in proficiency in these drills. The course in Infantry drill was designed to teach quickness of action on the part of the individual student as well as to acquaint him with the most modern means of fighting. The course in minor tactics was directed by Col. B. C. Howland and embraced the instruction of the students for becoming officers. Besides the aforementioned courses, there was special instruction in range practice and rifle marksmanship, topography and map reading, all with the prime object of making the students leaders of men as well as improving their health and building up their physique.

But it was not a case of "all work and no play" for the R. O. T. C. boys. The hard work of the forenoon was to a great extent offset by opportunities for recreational games during the latter half of the day. The recreation halls and evening entertainments were under the direction of Maj. McLachlan, the Morale officer, while Capt. Dager, the Athletic officer conducted the athletic games. Each of the six companies was represented by a baseball team and games were played every afternoon for the league pennant. The camp tennis courts were almost continually in use by the R. O. T. C. students during the afternoon and evening. In addition to these sports, swimming races, track meets, and basketball games were played and when the day of departure came it was with a feeling of

the utmost reluctance that the students bid goodbye to the camp—some promising to return next summer.

THE KREMLIN, MOSCOW
Most of the famous buildings of the world are equipped with Otis Elevators

THE KREMLIN is the citadel of Moscow. The walls of the triangular enclosure were built in the year that Columbus discovered America. Much of the history of Russia—a dark tale of intrigue, mystery and bloodshed—was enacted in the Kremlin buildings.

The present Great Palace dates back only to Napoleon's day, for his soldiers burned the old palace. There are two Otis Automatic Push Button Elevators in the Great Palace. There is another Otis Elevator in the Nicholas Palace.

This is significant of the world-wide scope of Otis activities. From the first crude hydraulic elevators to the modern miracle of automatic vertical transportation, Otis has led the way and even now is continually developing new and better methods and machinery.
